"DIE LESS OFTEN: DLO the interface of Gun, Knife & Empty Hand"

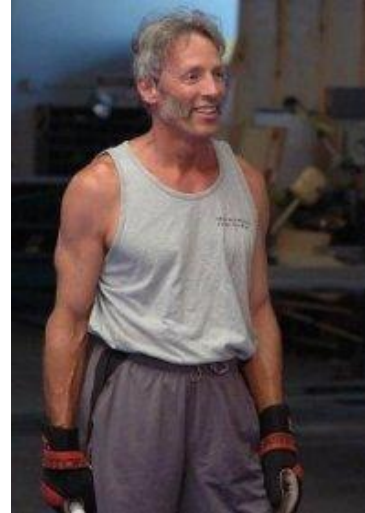

DON'T MISS THE OPPORTUNITY TO TRAIN WITH TWO OF THE WORLDS FOREMOST EXPERTS ON THIS TOPIC!

In this course you will be shown how to frame the approach of potential problems and fence close quarter situations using "the Kali Fence" and how to intercept and defend against attacks from this position. Principal amongst these defenses is the innovative "Dog Catcher" which allows for one initial default response to the most common high and mid line attacks of empty hand and knife from which one can either access one's own weapons or respond empty handed.

GURO MARC DENNY is head instructor for Dog Brothers Martial Arts, and mastermind of the DLO program. DBMA is a world renown organization that is most known for its hard-core approach to the Filipino Martial Arts and "Higher Consciousness Through Harder Contact"® training philosophy. He works with various elite military and law enforcement teams and was a subject matter expert for contact weapons for the Army's MACP program.

JARED WIHONGI is one of a handful of Tuhon level instructors in the Filipino art of Pekiti-Tirsia Kali. His experience includes 13 yrs as a SWAT Operator/Police Firearms Instructor, and a contracted Special Forces Combatives Instructor for almost a decade. While a full-time Police Instructor, he developed the CQ-Force Integration Tactics program of instruction (CQ-FIT: Gun, Empty-Hand, Edged/Impact Weapons) which he has taught to Mil/LE Special Ops, Covert Ops, Tactical Teams & Air Marshals in the U.S., Europe and Asia.
